

Holders

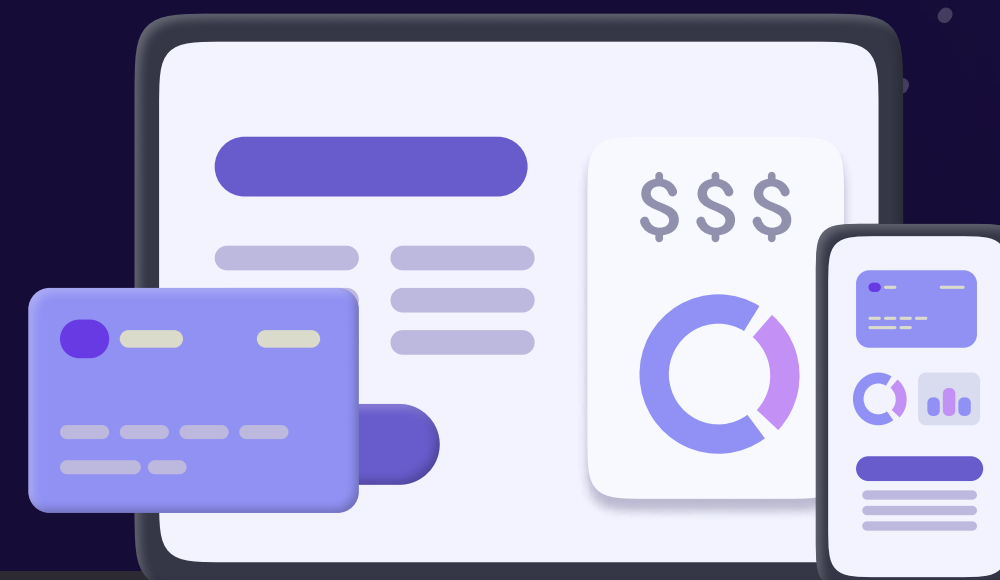

Let everyone pay with non-custodial crypto by bank card

Self-sovereign money – next stage of banking evolution

Traditional banks didn't
change for centuries

In 2007 Neobanking changed the industry
with mobile & UX focused business model

Disrupting historical injustice with **technology** and **freedom** of
decentralization

Non-custodial wallets compete with neobanks

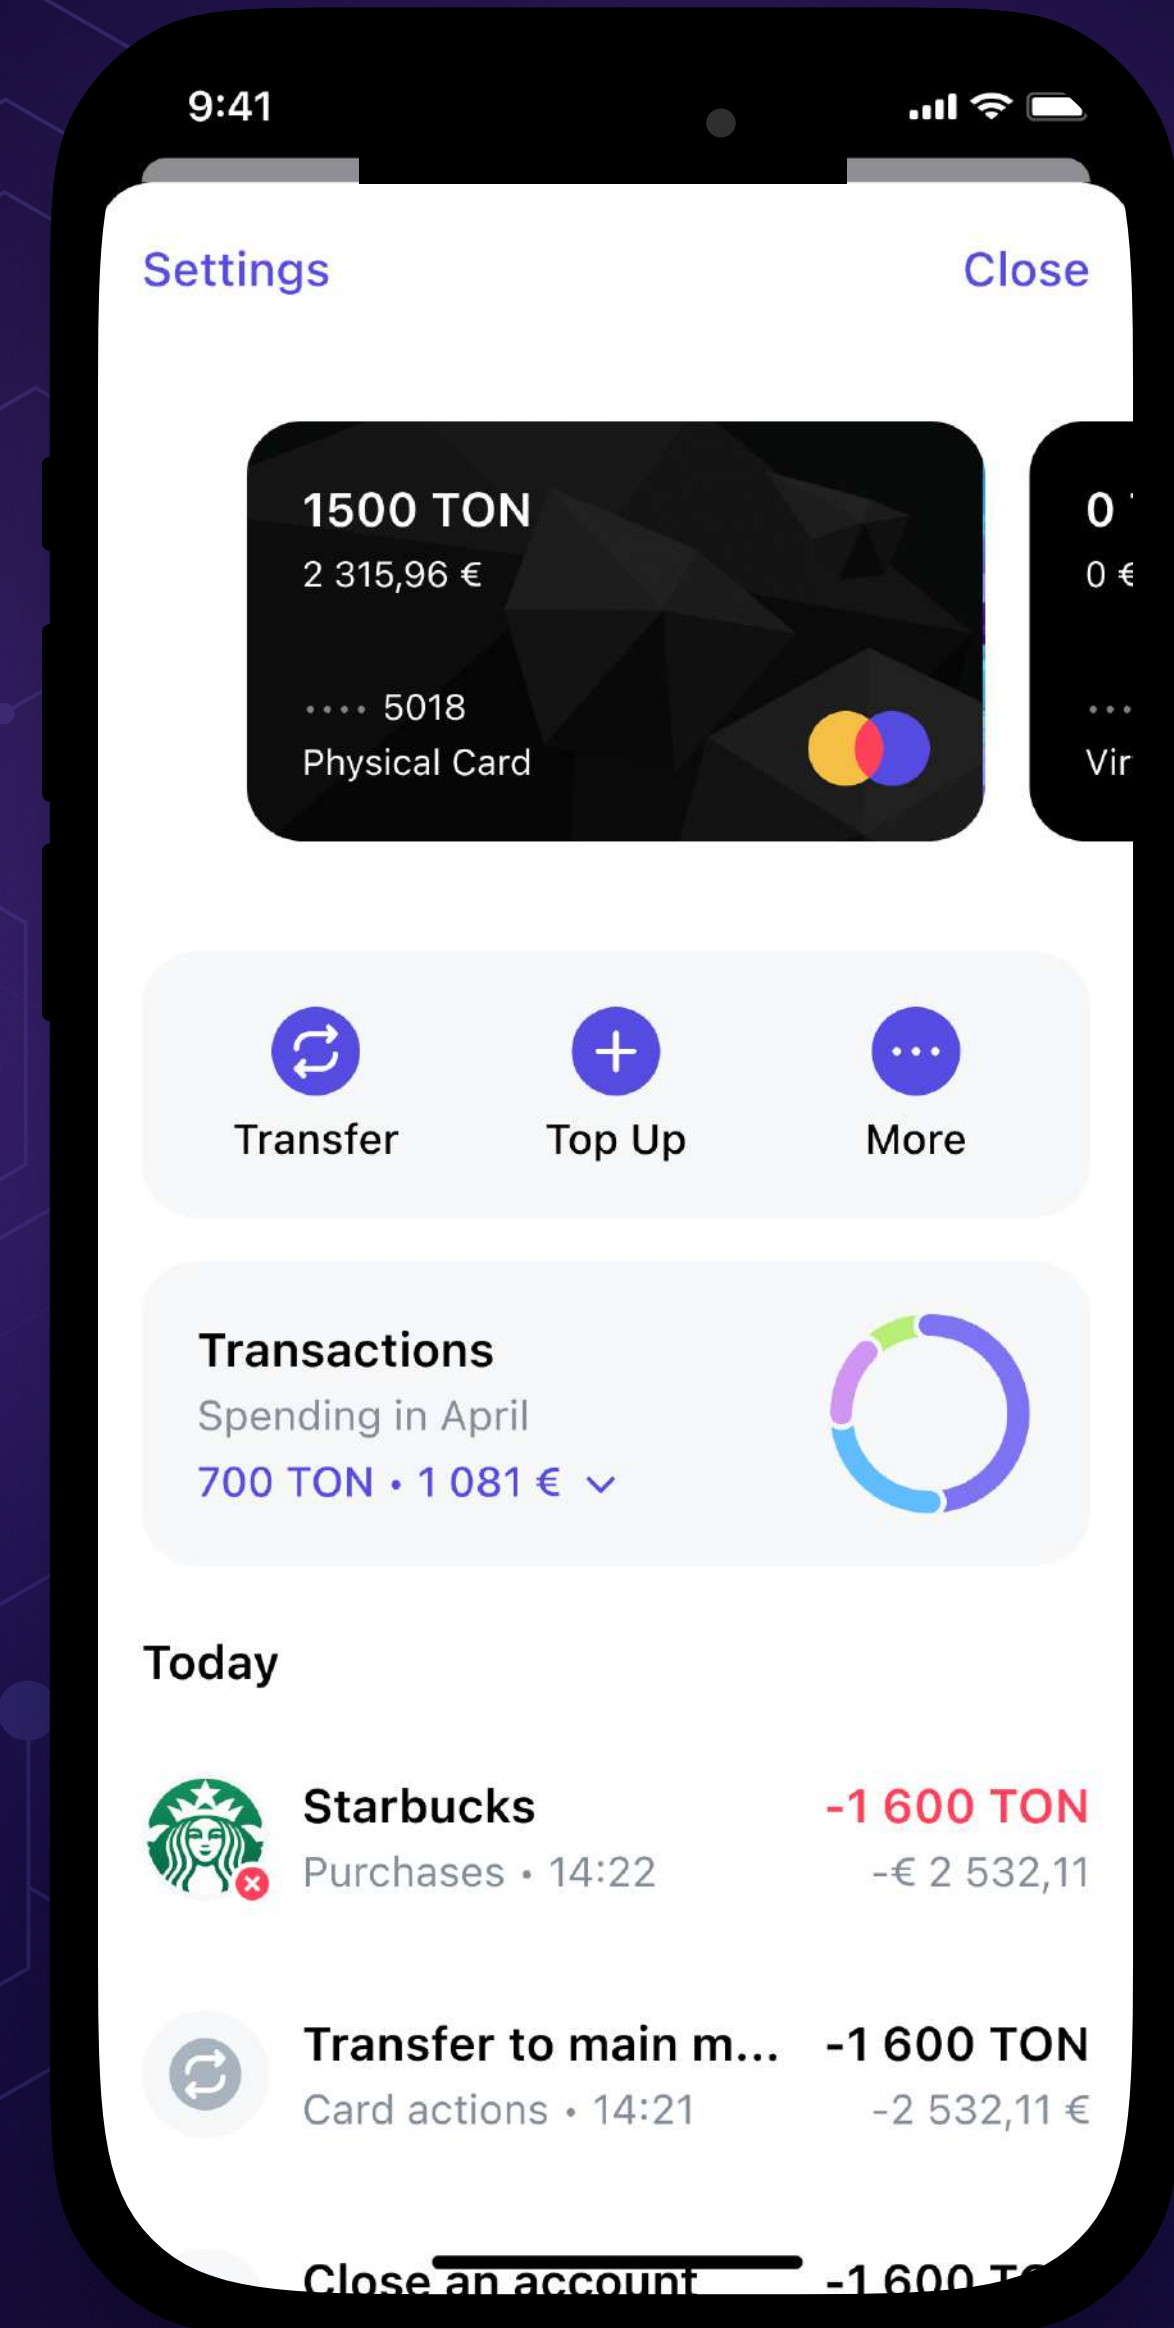

True money ownership.
Individuals grant banks
access to their funds

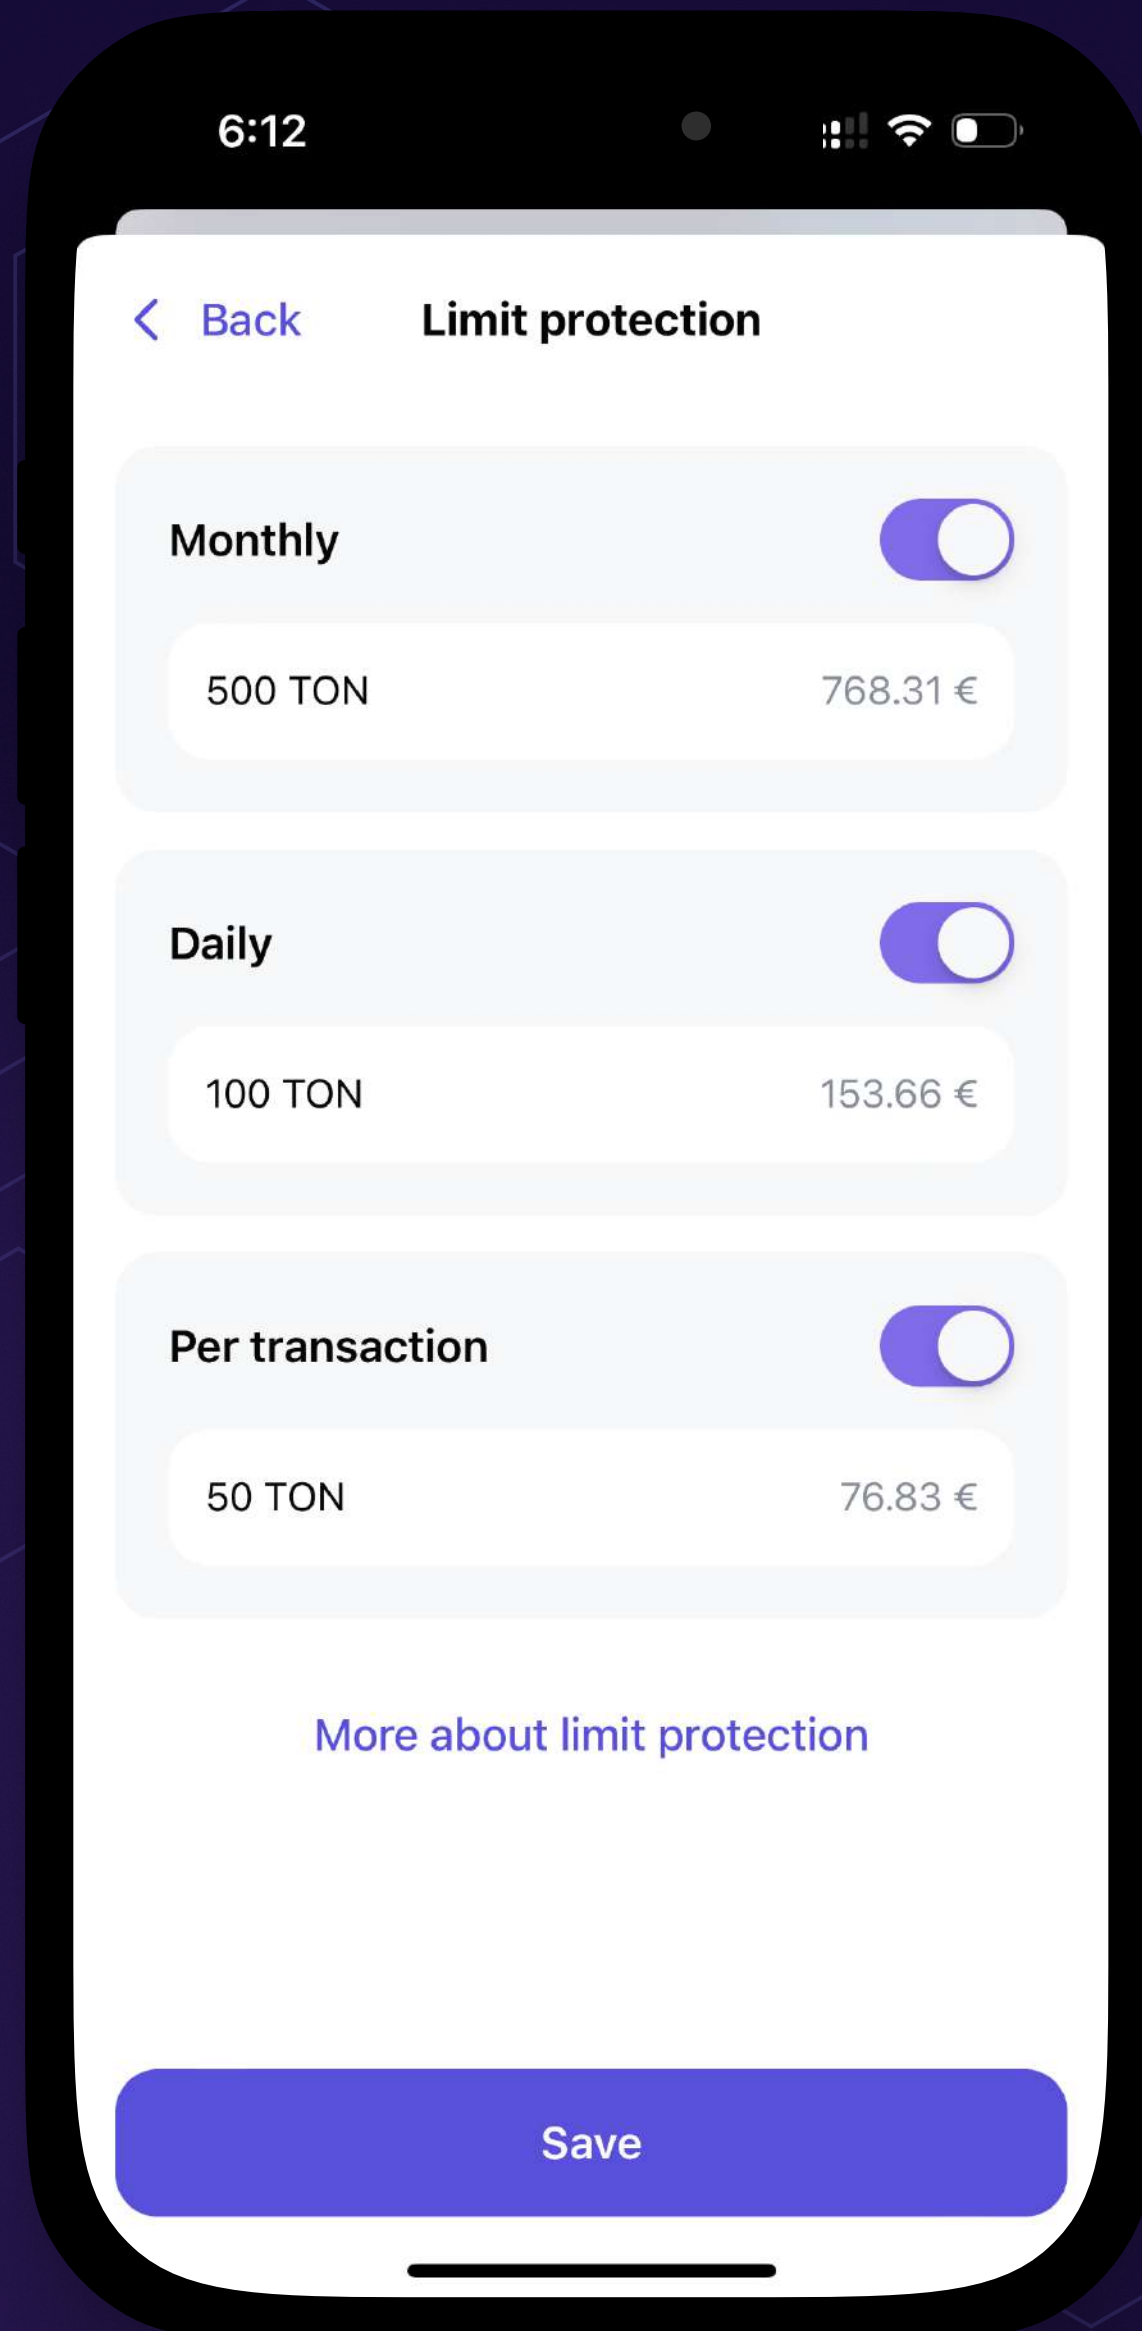

Freedom to move and
spend your funds the
way you want

Blockchain technologies
remove general & administrative
costs and decrease banking
service pricing

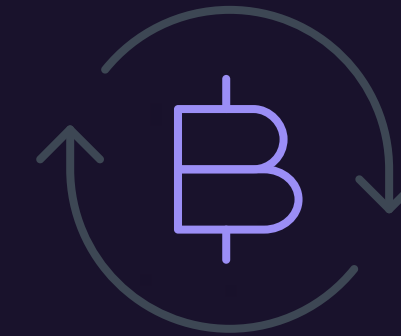

We Have Disruptive FinTech Product

AML/CFT/Compliance
checked crypto managed
by government licensed
company

Does not require fiat
top up, customer
is charged in crypto

Revolutionary blockchain
smartcontract linked to
bank card in mobile app

Available on the
App Store

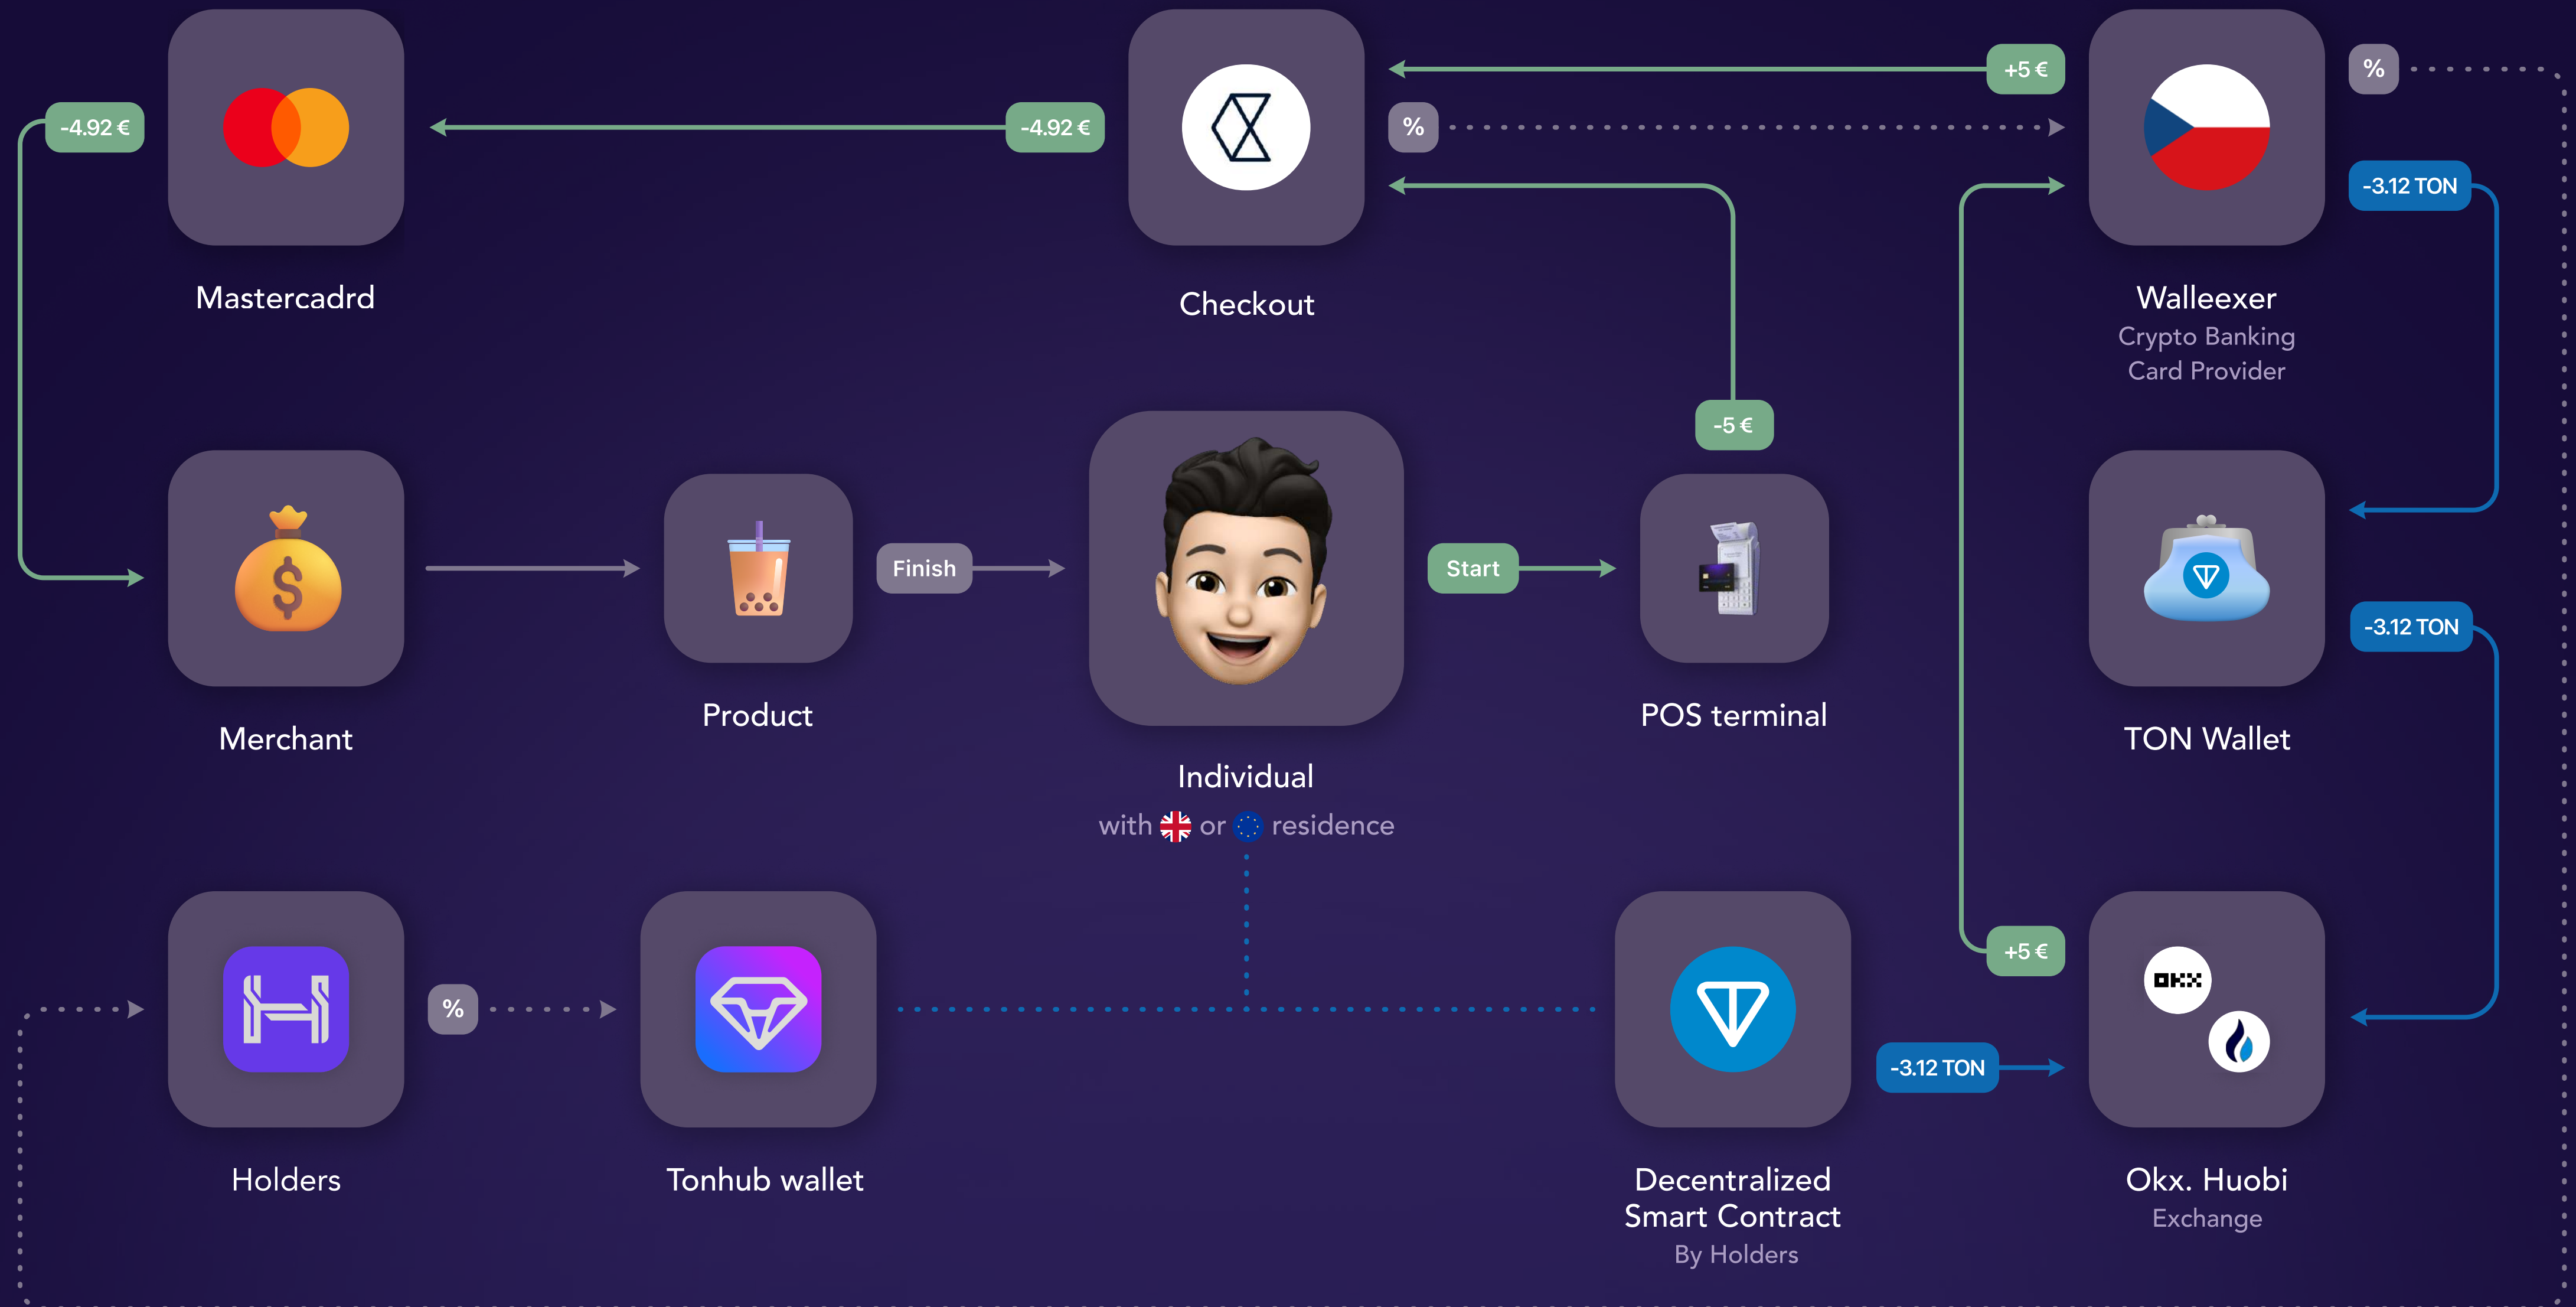

GET IT ON
Google Play
